

Sansiri posts Bt3 bn presales

Sansiri saw presales worth Bt3 billion last month thanks to strong demand for residential projects both in Bangkok and upcountry.

It booked presales of 60 per cent of the total project value of Bt1.2 billion of Chelona Khao Tao in Prachuap Khiri Khan province.

The company plans to launch 15 new projects upcountry worth Bt10 billion during the rest of the year. That should drive its pre-sales to the full-year target of Bt15.6 billion.

The company recorded pre-sales worth Bt13 billion in the first four months of the year.
