New Sansiri project

PROPERTY: SET-listed property developer Sansiri yesterday unveiled the EDGE Sukhumvit 23, a top-end condominium project valued at over 2.8 billion baht.

The project, 150 metres from the Asoke skytrain and Sukhumvit MRT stations, is designed for modern and hip urban lifestyles. Prices start at 4.49 million baht a unit.

Uthai Uthaisaengsuk, a senior executive vice-president, said the 35-storey condominium project is the first in the new EDGE series.

All the 443 units come in two types: one bedroom with space from 29.5 to 43 sq m and two bedrooms from 60 to 69.5 sq m.
