

BBL'S DISCOUNTED HOME LOAN

Bangkok Bank is offering a home loan with a special interest rate of 2.99 per cent for three years. The bank's senior vice president of the product and distribution department, Pimonporn Poolnapol, second from right, the vice president of consumer banking, Somchai Phantharak, second from left, and Sansiri senior executive vice president Metha Angwatanapanich, third from right, come together for the launch of the marketing campaign for the discounted loan. Customers can make monthly repayments of Bt3,000 for borrowings of Bt1 million. The fixed rate will apply for the first three years while for the rest of the contract term the rate will be the minimum retail rate minus 2 per cent. The deal is available at 56 Sansiri projects, including detached houses, townhouses and condominiums. It is available to customers who book, apply for a loan and register a mortgage until June 30. Bangkok Bank and Sansiri say they collaborated on the offer to make home purchases easier for customers.
