GARDEN  
SQUARE

Evoking the legendary row houses of Kensington, Garden Square's iron-gated park at its center houses a single perfect tree, creating both a sense of sanctuary as well as a sense of community.

London townhouse living requires more than architecture. It is defined by a precise and pleasing geometry of lines and proportions which provide a sense of solid foundations upon which to build generations of contented living.

Take the rare opportunity to stroll in Bangkok. With secured streets providing a pleasant walking route, the flow of life will always be encouraged by Garden Square's user-friendly layout and wide central space.

Designed to host a lifestyle that's both premium yet homely, the interiors take full advantage of the private surroundings to let in the light and connect your family to the natural cycles of day and night.

With plenty of space for your family's present and future dreams, the thoughtful room layouts provide a place for everything while keeping the diversity of family activities connected.
